

## OCTOBER 15, 2015

# South Airfield Construction Complete New Runway 10R-28L Opens

On **October 15, 2015**, the O'Hare Modernization Program will reach a major milestone with the completion of south airfield construction and opening of new **Runway 10R-28L**. A new South Tower will also be commissioned that will control Runway 10R-28L.

Runway 10R-28L will be primarily used in East Flow conditions, during which south airfield traffic will operate with:

- **Departures** from **Runway 10L**
- **Arrivals** on **Runway 10C**
- **Arrivals** on **Runway 10R**

### New Radio Frequencies

South Control Tower: **133.0**

South Ground **118.05**

### Final Approach Fixes

Runway 10R – **FLLYN**

Runway 28L – **PONCC**
